Energy efficiency is a key strength, with 17 solar panels supplying three 5kWh (15 kWh in total) batteries, instant gas hot water to the house and heat pump electric hot water service to the additional accommodation, keeping energy costs to a minimum. A secure dog enclosure adds practicality and multiple parking areas for floats, caravans, boats and trailers add further convenience.

Adding another layer of appeal is the fully self-contained bedsitter, currently operating as Minkara Homestay on AirBNB, returning an average of \$31,000 per year over the past two years. With its kitchenette, reverse cycle split system, wood heater, and separate bathroom with large double bathtub, this space can easily be adapted for extended family, guest wing, teenagers retreat, or a home office if income is not required. All reviews are complimentary to the views and serenity it offers.
