Externally the property is separated into 4 paddocks with electric fencing, water and laneway access. There are 2 dams on the farm, including one that is spring-fed, a major asset as farms approach the El Nino cycle in 2026. The property's outside water is provided by unmetered groundwater bore, a massive asset. Horse facilities include Equimesh fencing, riding arena surfaced with Yea river sand and power connected to the arena for future lighting.

The property also include 13 m x 12 m machinery shed with concrete base and power, as well as 3 horse stables with tie-up rubber, wash bay with hot water and lock-up tackroom.

The current owner has regularly improved pasture to be high-producing and yielding in hay season, now with 4 different ryes.
